

Silk Daisy Crown

You will need:

- Green (or other color) pipe cleaners (2 to 3)
- 6 or more silk daisies (craft store)
- Hot glue gun
- Scissors
- Ribbon (optional)

Look in one of the [***Do Princesses***](#) books to see an example of a daisy crown. And see photo of Lulu... isn't she cute?

With the help of a parent, twist two pipe cleaner ends together into one long piece. (Add another depending on the size of your head.) Then twist the two ends together to make one big circle. This will be the base of your crown.

Now, ask your parent to attach the silk daisies by using a hot glue gun, attach daisies in various locations around the crown.

Tie a ribbon to the back, if you would like.
